# After 40 years of service on

Leave it to the farm scale specialists to handle all your weighing needs

## Mini-Scales

Compact in size yet mighty handy in special applications, our mini-scales have found a home in today's farmers markets, veterinary clinics, landscape designers, and manufacturing facilities where precision accuracy is necessary. From container or bushel basket to newborn animals, the mini-scale is a very low profile, electronic scale. The aluminum 20" x 50" platform weighs only 35 pounds and has adjustable leveling feet for convenience. Custom sizes are also available. All scales are complete with state-of-the-art touch pad digital indicators and easily ship via UPS.

## Small Animal Scales

Weigh hogs, sheep, llamas, alpacas, goats, dogs, etc. on a 20" x 50" alleyweigh for sorting and monitoring. Optional crates with easy catch and release latches allow complete, calm control from entry to exit. Also available are small animal group scales of 4' x 6', 3' x 8', and 6' x 10'. Several models of digital indicators with multiple features are available. 4-H groups all over the United States prefer these scales.

Locking pin holds unit in stable position when transporting.

## Portable and Stationary Individual Animal Scales

Simply pull the locking pin and hand winch to proper tension to allow wheels and axle frame to drop into position and convert our chute scales into an easy pulling on-site scale system. 3' x 8' scale with sliding enter-and-exit doors allow easy one-man operation. Adjustable tongue hitch for easy drop pin attaching. One or two pound increments—working capacity 5000 lb. Optional headgate.

Easy hand winch raises or lowers unit into place.

## Livestock Scales

The livestock scale is available in three standard sizes. Our quality features when compared to our prices are the best in the market. Choice of 8' x 10' (also available in a wheel kit, holds 8-10 head), 8' x 16' (12-15 head), 8' x 20' (18-22 head). Capacities listed are based on 1,000 lb. cattle. Each unit is self-contained and can be moved to any location. Deck dimensions can be altered on customer request.

# all brands, we build the best.

## Chute Scales

Our unique counter-sinking 10,000 lb. capacity weigh bar systems for cattle working chutes are designed to handle the heavier shock vibration handed out by your cattle. Central City Scale systems will function at temperatures  $-20$  degrees. All digital indicators offer multiple levels of motion filtering and a capture mode. They also have interfacing capabilities with cloud software, computers, iOS, Android, and printers.

Typical installation

Chute weigh bars

## Accurate reading either in your operation or in the field.

### Standard Features on our Chute Scales

- Polyurethane Sheathed Cables—Maximum protection from moisture, lightning and physical damage.
- Steel Potting Shield—Protects against impacts better than plastic shields.
- Optional Temperature Compensation—For inventory applications requiring accuracy with large temperature variations.
- Durable Alloy Steel Construction—Handles extensive use for years of trouble-free service.
- Sealed Strain Gauges—Aerospace-developed sealing agent and industrial grade potting compound protect against the harsh agricultural environment.
- Patented Weigh Bar—The most reliable weight sensor in the industry.
- Pre-Calibrated

### Model 64OM

The small, compact indicator design makes it ideal for places like truck and tractor cabs.

### Model 64O (1.1" display) Model 64OXL (2" display)

The Model 64O/XL is a general purpose indicator which provides simple, yet accurate and reliable weighing used on mixers, grain carts, livestock scales, feed bins, weigh carts and many more applications. 100 channel memory for individual field records.

### Multi-Purpose Scale

Up to 5,000 lb. system for around farm ideas. Complete with compact readout. 12V or 110AC. Load cells act as bolt-on feet.

You can measure either your bale processor or individual bale right in the field

**Grain Cart Scale Kit**

For maximum efficiency by hauling at or near capacity without exceeding legal limits, update your grain cart weighing system with a grain cart kit.

**Build Your Own Scale**

Update Your Old Conventional Scale with New Electronics  
 Order our plans for standard sizes. Indicators, power supplies, sensors and mounting brackets to fit your specs are also available.

Take the scale to the field.

Be efficient by hauling at capacity without exceeding legal limits.

Ask about our Stationary Mixer, Grain Cart, Gravity Flow Wagon, Cake Feeder, Pallet, Bulk Tank and Feed Wagon Scales.

Platform Scales are available from 10' x 30' to 10' x 70' with capacities from 60,000 to 140,000 lb.

**Portable Platform Scales**

**Platform Scales for Any Weighing**

Take the guesswork out of yield weight with our platform scale. You can measure either your bale processor or individual bale right in the field.

As more and more livestock are being transported to feed yards or direct to market with large semi-trailers, we continue to receive calls on our portable platform scales. The platform measures 8' 1/2" x 10' 8" with 50,000lb. capacity. Available with a choice of digital indicators to fit your operation. Options include: detachable ramps, removable livestock racks, indicator stand, wheels and axles (removable), ball hitch assembly, remote display and weatherproof indicator box with printer.
