Central City Scale
EZI Weigh 7

Features

With the capability to record information against Electronic ID (EID) or Visual tags, you can easily capture and analyse individual animal performance and history. Replacing guesswork with facts, the EziWeigh7i displays live weight gain since the previous session, showing animal performance right there in the yard.

Capabilities

Wireless or tethered EID reader connectivity. Choose between wireless communication with EID readers up to 330 ft away, or connect via cable

ID capable. Records information against EID and VID tags. VID numbers will automatically be cross-referenced with their EID match, saving you time and reducing data entry

Live weight gain. Calculates and displays an animal's daily weight gain since the previous session

Capture traits or treatments. Record notes for each individual animal

Memory and storage capacity. Stores up to 100 weighing sessions and 20,000 records

Statistics. Summary statistics from the current and previous weigh sessions can be recalled in the field

Sorting capability. Sort animals into uniform groups based on live weight; up to 3 sort ranges available

Highly visible display. The EziWeigh7i has a large 5.2" x 1.6 " display with a super bright white LED backlight to make it viewable in all conditions, from the brightest daylight to darkness

PC connectivity. Direct and easy communication with your computer via a USB cable and Data Link software

Long life and fast charging battery. Over 15 hours of run time and only 3 hours to recharge. The EziWeigh7i will also automatically turn off after 15 minutes of no activity to save
