

## ID 5000

### About

Superdamp 4™ weighing technology locks onto the weight of the liveliest animals faster than ever before. Combined with a rugged design, suitable for even the most extreme outdoor environments.

The ID 5000 is faster to set up and access information, with a revolutionary screen that is clearly visible in the pasture and pens (even in the harshest sunlight).

### Features

Store up to 250,000 records in 250 weighing sessions. For each animal you can record up to 3 IDs and 3 pieces of information.

Provides a range of features to calculate and visualize the performance of individual animals or groups.

Sort animals into predefined groups based on weight or other criteria. Up to 5 groups can be created

Quick access keys and keypad avoids obscuring screen with dirty fingers.

Simple and quick to set up

Use the pre-defined setups or save your own favorite setups to easily switch between jobs. Built-in step-by-step instructions and pop-up help provide on-the-spot support if needed.

No matter where you are you can quickly transfer information using your mobile device (Android\* or Apple\*), USB memory stick or computer (Microsoft Windows\*).
